Silex Solid Silicone Rubber Sheet

FDA Compliance Statement

Ref. Grades GP 30, GP 40, GP 50, GP 60, GP 70 and GP 80

& Glass Reinforced grade GP 60

We hereby confirm that the above grades contain only listed ingredients according to FDA standard 21 CFR 177.2600 and are fully post cured in accordance with the raw material manufacturers guidelines.

Silex grades GP 30 – GP 80 are therefore suitable for use in direct contact with dry, aqueous and fatty foods.

In addition they are also compliant to EU regulation EC 1935/2004.

Dear

SUBJECT: Food and beverage Declaration for transparent Silicone article 240/T

Hereby we DECLARE that sheets in transparent Silicone Shore 60±5 we supply can be used regularly in contact with substances intended for human consumption.

As a matter of facts components of *Momentive MG8838T60* mix (we used) are present in the positive FDS list with code No 21 CFR 177.2600 (this legislation refers to elastomer manufacturers in continuous contact with food and beverages).

Limitations relating to the elimination of volatile substances (for example peroxides) have been overcome by a post-curing treatment (with permanence into the oven with forced circulation of air for 6 hours at 200°C) we made on each piece.

It therefore makes the following statement, with the limitations imposed by law.

Best regards.

EUROFOAM S.r.l.
